Addendum to Terms and Conditions for Exhibitors

Historically our event has had exemption from the requirements of Sections 1 to 3 of the Road Traffic Act (RTA), granted to us by NTET as part of our event authorisation. However, internal problems at NTET have led to them having to withdraw those exemptions. What this now means, to the drivers of all vehicles on site, is that the RTA and associated regulations are now deemed to apply in full to the whole site, and in the event of a serious accident involving injury to persons or damage to property, the driver of any vehicle involved could find themselves facing legal action, by the investigating police authorities, who we are obliged to inform, for not driving in full accordance with the RTA, and could be prosecuted for dangerous, careless, or inconsiderate, driving.

It is a condition of your entry to site that all vehicles must be driven at all times in full accordance with the RTA, and, by returning your completed entry form, you acknowledge and accept this condition. The only remaining exception to this is that registered NTET Apprentices are covered by NTET's insurance whilst undergoing supervised training in driving a steam engine.

All vehicle drivers should be aware that there is no insurance, or exemption, in place that covers the carriage of passengers on a trailer that fails to meet full regulatory requirements for such use on the public highway, and as such, this is not permitted on site, and in the event of accident the driver would be fully liable for the consequences if these requirements have not been met.

This also includes, but is not limited to:

- Motor cyclists and passengers must wear crash helmets when riding motorcycles .
- Car drivers and passengers must wear safety belts (where fitted) when moving vehicles on site.
- Relevant third-party motor vehicle insurance as a minimum.
